Asthma Action Plan

Name: _____

Date of birth: _____

Clinician: _____

Clinic phone: _____

Emergency department phone: _____

My best peak flow: _____

My asthma triggers: _____

Green zone: doing well

No cough, wheeze, chest tightness or shortness of breath, day or night. I can do my usual activities. Peak flow is 80 percent or more of my best.

Take these every day

Medicine	How much	When

Before exercise, take: _____

Yellow zone: asthma is getting worse

Cough, wheeze, chest tightness or shortness of breath. Or I wake up at night with asthma. Or I can do some, but not all, of my usual activities. Peak flow is 50 to 79 percent of my best.

Take this quick-relief medicine, and keep taking my green zone medicines: _____

How much and how often: _____

If I am back in the green zone 1 hour later, I keep watching to be sure I stay there. If I am not, I take the medicine below and call my clinician.

Then take: _____

For how many days: _____

Call my clinician within (hours): _____

Red zone: medical alert

I am very short of breath. Or my quick-relief medicine has not helped. Or I cannot do my usual activities. Or I have been in the yellow zone for 24 hours and am not better. Peak flow is less than 50 percent of my best.

Take this medicine now: _____

How much: _____

Then call my clinician now. Go to the hospital or call 911 if I am still in the red zone after 15 minutes and have not reached my clinician.

Danger signs: call 911 now

☐ Trouble walking or talking because I am short of breath

☐ Lips or fingernails are blue or gray
