Consent for Photos and Recordings

Patient name: _____

Date of birth: _____

Patient ID: _____

Sometimes a photo, video or audio recording helps with your care. For example, a photo of a wound or a rash shows how it changes over time. _____ will only take one if you agree.

What will be photographed or recorded (for example, the part of the body): _____

You may take photos or recordings of me for (tick each one you agree to)

☐ My health record and my care. This includes sharing them with other clinicians who care for me.

☐ Teaching doctors, nurses and other health students and staff. My face and name will be hidden when possible.

This consent is for

☐ This visit only

☐ This visit and later visits, until I take it back

I understand that

☐ I can say no. Saying no will not change my care.

☐ I can ask to stop a photo or recording at any time while it is being taken.

☐ I can take back this consent at any time by telling the clinic in writing. This stops new photos and new uses, but not uses that already happened.

☐ Photos and recordings for my care become part of my health record. They are kept private, like the rest of my record.

☐ The clinic will not use them for advertising, websites or social media. It will not share them outside my care and teaching unless I sign a separate permission for that use.
