Countries you were born in or lived in: _____

Pregnancy

Which is true for you? (tick one)

☐ I could become pregnant
☐ I am pregnant now
☐ I am planning a pregnancy in the next year
☐ This does not apply to me

For office use: what the answers may point to

Check each against the current USPSTF advice and the patient's age and history. The clinician decides.

☐ Lung cancer scan: age 50 to 80, 20 or more pack-years, smokes now or quit in the last 15 years (Medicare: 50 to 77)
☐ Aortic aneurysm scan, once: a man 65 to 75 who has ever smoked; Medicare also covers family history
☐ BRCA risk tool: a woman with breast, ovarian, tube or peritoneal cancer in her or her family, or Ashkenazi Jewish ancestry
☐ HIV PrEP: a partner with HIV, a recent STI, sex without condoms, shared needles, or asks for it
☐ HIV, syphilis, chlamydia and gonorrhea tests: higher risk, or asks for a test
☐ Hepatitis B test: born where it is common, parents from there, needles, men who have sex with men, or a contact with it
☐ Hepatitis C test outside ages 18 to 79: ever injected drugs
☐ TB test: born or lived where TB is common, or lived in a shelter, jail or prison
☐ Bone density risk before 65 after menopause: a parent broke a hip, smoking, heavy drinking or low weight
☐ Colon cancer screening from 45 is for average risk; past polyps, cancer, Crohn's or colitis need a different plan
☐ Cervical screening stops after a hysterectomy that removed the cervix, with no past high-grade change
☐ Folic acid 0.4 to 0.8 mg a day: could become pregnant, or plans to
