# Sharps Injury Log

**Employer: _____**

**Site: _____**

**Calendar year: _____**

Write each injury from a contaminated sharp here, as soon as it is reported. Do not write the injured worker's name: use the case number from their confidential exposure report, so no one can tell who was hurt from this log.

### Injuries

| Date | Case number | Type of device | Brand of device | Department or work area | How the incident occurred |
|---|---|---|---|---|---|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

### More detail, where a state plan asks for it

| Case number | Job classification | Procedure being done | Body part | Safety feature on the device, and was it activated | Could a safety device or other control have prevented it |
|---|---|---|---|---|---|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

Keep this log for 5 years after the end of the calendar year it covers. If the type or brand of a device cannot be found out without risking another exposure, write unknown.
